-

Experience

Full Stack Developer — Gulf Digital Solutions, Dubai (Feb 2022 – Present)

- Built bilingual (Arabic/English) e-commerce platform (Django + React) serving 120,000 MAU across 6 Gulf countries.
- Implemented RTL-first CSS architecture and Arabic text normalisation; achieved WCAG 2.1 AA accessibility compliance.
- Designed multi-currency payment integration (PayTabs, Telr) for AED, SAR, KWD, and EGP.
- Reduced page load time 35% via Django caching (Redis), query optimisation, and CDN (CloudFront).
- Led API versioning and OpenAPI/Swagger documentation; onboarded 3 third-party partners.

Junior Developer — MediaTech Beirut (Jul 2020 – Jan 2022)

- Developed CMS features for Arabic-language news portal (Django) with 500k daily readers.
 - Built React-based interactive data visualisation for election result dashboards.
 - Wrote Python scraping scripts (BeautifulSoup, Scrapy) from 40+ Arabic news sources.
-
